

BRAND VENDING thinking outside the capsule

The NEXT Generation of Candy/Gum Vending

A solution to the Covid-19 bulk vending of raw candy

Brand Vending Products LLC, a leader and pioneer in the toy and vending industry for over 24 years, while working with Concord Confections and Tootsie Brands in North America have come up with an innovative solution to the safe dispensing of candy in bulk vending machines. Any bulk vending machine currently dispensing 2” capsules can now vend the **NEW Candy Capsule**. Candy that is now hygienically shrink wrapped and sealed inside a small container. The user gets what looks like a sealed pack of candy right out of the vending machine.

In this day and age of Covid -19 and the public being wary of hygiene and safety we needed to address the concerns of our customers.

With gum and candy being one of the number one products vended from bulk dispenser it makes sense to innovate the way candy and gum is dispensed to the user. No longer is the consumer going to accept raw candy and gum coming out of the metal chute and being touched by multiple hands. This new innovative method is safe, hygienic and portable. We have partnered up with an FDA approved fulfillment center to assure quality and hygiene standards are met.

C.E.O. of Brand Vending – Scott Jochim says: “We are very excited to once again bring the first ever of its kind an affordable sealed candy and gum capsule to the North American market. Products like this help keep Brand Vending in the forefront and leading edge of the industry in safety and in access. This product is all about innovation, accessibility, hygiene and safety. While still giving the customer the experience and convenience of candy and gum in bulk vending machines where we have all come to love.

Products like this open up a whole new market of limitless opportunities. “Brand sees thousands of potential outlets for these types of safe candy and gum capsules. Nuts, chips and other products that you want to be safe and hygienic and ready to eat are coming.

Who is Brand Vending Products, LLC?

Brand Vending Products has been promoting and innovating great bulk vending products for over 24 years. They create, design, and develop their own toy lines and brands; like the popular SqwishLand figurine series which has been awarded the Best-Selling 1-Inch Capsuled Product for 9 years running. The SqwishLand toy line has sold over 100 million figurines in both retail and vending. “Our goal has always been to offer unique products that sell through vending
